

**PLEASE READ CAREFULLY**

Our greatest concern is for your pet while he/she undergoes anesthesia. Because of this concern, we strongly recommend a pre-anesthetic blood profile be performed prior to surgery. The profile maximizes safety by alerting the doctors the presence of Anemia, Kidney and/or Liver disease, which could compromise your pet's ability to handle anesthesia. The results of this profile can alert your doctor to either adjust levels or delay the procedure.

**The cost of the Pre-Anesthetic Blood Profile is: \$154.02**

YES \_\_\_\_\_ I want the pre-anesthetic bloodwork.

NO \_\_\_\_\_ I decline the pre-anesthetic bloodwork.

**MALES/CRYPTORCHID-** If your pet has a retained/undescended testicle and the Dr. has to go into the abdomen to retrieve the testicle there will be an extra charge of **Abdomen Area \$30.00-\$75, Inguinal Area \$20**. Yes \_\_\_\_\_ I agree to pay the extra charge if my pet is a cryptorchid

**FEMALES/IN HEAT/PREGNANT/POST ESTRUS/SWOLLEN VULVA** - If your pet is in heat, pregnant or has any of the issues stated at the time of surgery, there will be a **\$18-\$30** fee to be paid when picking up. YES \_\_\_\_\_ I agree to pay the extra charge if my pet is in heat/pregnant/post estrus/swollen vulva

**PAIN MANAGEMENT-** The administration of pain management has been shown to speed the recovery process as well as lead to greater patient comfort. Therefore, pain medication is highly recommended.

This is an **ADDITIONAL \$20-\$30**. YES \_\_\_\_\_ I want pain medication for my pet NO \_\_\_\_\_ I decline pain medication for my pet.

**MICROCHIP-** A permanent microchip is inserted just below the skin surface in your pet. This microchip is programmed with a code that can be identified with a hand-held scanner. This procedure is most easily accomplished while your pet is under anesthesia. This is an **ADDITIONAL \$25.00** (normally \$35.00).

YES \_\_\_\_\_ I accept the Microchip NO \_\_\_\_\_ I decline the Microchip

**FECAL-** It is very important to have your pet tested for intestinal parasites every so often. We highly recommend for your pet to be tested every 6 months. While your pet is under sedation, it is the best time to screen for intestinal parasites. This procedure is an **ADDITIONAL \$19.50**  
YES \_\_\_\_\_ I want my pet screened for intestinal parasites NO \_\_\_\_\_ I do not want my pet screened for intestinal parasites

**FELINE AIDS/FELINE LEUKEMIA** – This test is for feline immunodeficiency virus and/or the feline leukemia virus. YES \_\_\_\_\_ Please perform the test on my cat. This is an **ADDITIONAL \$66.55** with exam fee.

NO \_\_\_\_\_ I decline the recommended test for Feline AIDS/Feline Leukemia screening test at this time. I have been advised of the risks of FIV and FeLV, and understand that an affected cat may

spread FIV and/or FeLV to other cats with casual contact, such as grooming or sharing food and water bowls.

**ELIZABETHIAN COLLAR** – It is imperative that your pet does not lick or chew at, the surgical site during recovery. We HIGHLY recommend the purchase of this item to prevent possible complications after their surgical procedure.

**ADDITIONAL \$25** \_\_\_ YES, I WANT TO PROTECT MY PET \_\_\_ NO, I DO NOT WISH TO PURCHASE

**IV FLUID THERAPY** – Your pet may not have an appetite for a day or so after their procedure. It is important to make sure that your pet is adequately hydrated before and after their surgery to prevent complications. Having an IV in place while under anesthesia, also provides quick access for the doctor if any complications arise.

**ADDITIONAL \$75** \_\_\_ YES, I WOULD LIKE FLUID THERAPY \_\_\_ NO, I DO NOT WISH TO PURCHASE

**EXAM/VACCINES**- If your pet is NOT up to date on Rabies and FVR then we will vaccinate at the time of the procedure for an additional fee. We do require that all pets have an Exam and; Vaccinations at the time of the procedure.

**SURGICAL AND HOSPITAL AUTHORIZATION**

I hereby consent to authorize Lanett Animal Clinic and staff to receive, prescribe for, treat or operate upon my animal(s).

The Lanett Animal clinic and staff are to use all reasonable precautions against injury, escape or destruction of the animal. I understand that all anesthesia involves some risk to my pet, but Lanett

Animal Clinic will not be held responsible in any manner whatsoever.

I also understand that Lanett Animal Clinic is not staffed 24 hours a day and after-hours treatment of patient is at the discretion of the veterinarian.

In the unlikely event that your pet suffers from cardiac or pulmonary arrest while under anesthesia, please provide:

\_\_\_ Life saving measures (needed injectable medicines, CPR) additional cost of \$100-\$200

\_\_\_ Do Not Resuscitate (DNR)

**\*\*As a routine, we will tattoo your pet after the surgical procedure\*\***
